VILLA SPA TREATMENTS FOR COUPLES

NATURE ON YOUR BODY

Among the highest quality ingredients we use in our treatments are certainly those from our immediate environment that have been grown and processed according to original recipes for centuries.

Salt from Ston is one of the highest quality salts in Europe, extremely rich in iodine and with over 80 different minerals. Olive oil is a liquid gold of sorts, especially due to its anti-aging and anti-inflammatory properties.

Mediterranean herbs grow in abundance in our region, whether it is a soothing, antibacterial lavender, immortelle that erases signs of aging, rosemary that soothes the body and mind, or mint that strengthens immunity, protects against infections, and helps with insomnia.

One of the oldest pharmacies in Europe uses roses to produce oil and a cream that bring joy with their scent, strengthen skin tone, and are even considered an aphrodisiac.
